## **PROFESSIONAL ACTIVITY**

- Pediatrician Hematologist since April 1995 - Department of Pediatrics - Hôtel Dieu de France Hospital, Beirut
- Pediatrician Hematologist and in charge of Blood Transfusion at the Center of Thalassemia "Chronic Care Center" from August 1995 until February 1996
- Medical counsellor and consultant in the Lebanese Association of Hemophilia since 2000
- Member of International Scientific Advisory Board of the XXI International Society on Thrombosis and Haemostasis congress, July 2007
- In charge of the educational program «Improving hemophilia care in Lebanon» Sponsored by Novo Nordisk Foundation; January 2008- January 2011
- Member of the VWD & Rare Bleeding Disorders Committee of the world federation of hemophilia (2012-2014)
- Member of HTC Twinning Committee of the world federation of hemophilia (2016-2018)
- Member of VWD and Rare bleeding disorder Committee of the world federation of hemophilia (2018-2020)
- Member of the Ethic Committee of Hotel Dieu de France Hospital Saint Joseph University (2020-ongoing)

## **ACADEMIC ACTIVITY**

- 1990-1991: Teaching "Child Care" at the Lebanese University Public Health section (Midwife)
- 1995-Ongoing: Teaching Pediatrics at the Nursing Sciences Faculty at Saint Joseph University
- 1997-Ongoing: Teaching Pediatrics and Hematology at the Faculty of Medicine-Saint Joseph University

- 2002-2012: Participation in teaching "Research Methodology in Public Health", Faculty of Medicine -Saint Joseph University
- 2004-Ongoing: Responsible of Basic Hematology teaching at the Faculty of Medicine-Saint Joseph University
- Associate professor in Pediatric at the Faculty of Medicine-Saint Joseph University since 2019

## **EXPERIENCE IN CLINICAL TRIALS**

### **Principal investigator:**

- Study FGT1- A616: International, clinical pharmacology, efficacy and safety of FGT1-A616 in the treatment and prevention of bleeding in patients with afibrinogenaemia or severe hypofibrinogenaemia (2011- 2013)
- Study twinfact clinical: "Etude prospective, multicentrique, de l'efficacité d'une prophylaxie au long cours avec de faibles doses du facteur VIII de coagulation humain (FACTANE®) sur le développement d'une arthropathie chez des enfants atteints d'une Hémophilie A sévère » (2009)
- Study twinfact epidemiology: « Etude epidemiologique, multicentrique, sur le developpement d une arthropathie chez les enfants atteints d une hémophilie A severe traites selon la pratique locale habituelle » (2009)
- A phase III Open label, multicentre Study to Assess the Pharmacokinetics, efficacy, and Safety of Biostate in Pediatric Subject with von Willebrand Disease. (2012-2013)
- A phase III Open label, multicentre Study to Assess the Pharmacokinetics, efficacy, and Safety of Biostate in Pediatric Subject with Haemophilia A. (2012-2013)
- A prospective, open-label, uncontrolled, single-dose phase I/II study investigating pharmacokinetic properties, efficacy, safety, and tolerability of BT524 (fibrinogen concentrate from human plasma) in patients with congenital fibrinogen deficiency 2012-2020)
- Clinical pharmacology, efficacy and safety of FGTW in pediatric patient with severe congenital fibrinogen deficiency - Protocol FGTW-1004. (2014-2016)
- A phase III open label pharmacokinetic, efficacy and safety study of rVIII-single chain in a pediatric population with severe Hemophilia A (2015)
- A phase III open label , multicenter, extention study to Assess the safety and efficacy of recombinant coagulation Factor VIII (rVIII-siglechain, CSDL627) in subject with severe hemophilia A (2015- on going)

- Prospective, open-label, uncontrolled, phase III study to assess the efficacy and safety of Octafibrin for on-demand treatment of acute bleeding and to prevent bleeding during and after surgery in subjects with congenital fibrinogen deficiency (2015- 2018)
- Prospective, open-label, uncontrolled, phase III study to assess the efficacy, safety, and pharmacokinetics of Octafibrin for on-demand treatment of acute bleeding and to prevent bleeding during and after surgery in paediatric subjects with congenital fibrinogen deficiency (2016- 2019)
- A Phase 3, open-label randomized, multi-center, controlled trial to evaluate the pharmacokinetics and pharmacodynamics of edoxaban and to compare the efficacy and safety of edoxaban with standard of care anticoagulant therapy in pediatric patients from birth to less than 18 years of age with confirmed venous thromboembolism (VTE) (2017- on going)
- A Phase 1, Open-label, single-dose, nonrandomized, study to evaluate pharmacokinetics and pharmacodynamics of edoxaban in Pediatric Patients (2017- ongoing)
- Multicentric, prospective, open label, single arm trial to evaluate the pharmacokinetics, efficacy, and safety of human plasma derived fibrinogen (FIB Grifols) in patient with congenital afibrinogenemia.( 2018-2019)
- Prospective multicenter non interventional study evaluating the bleeding incidence in patient with Von Willebrand Disease, undergoing on demand treatment (WIL-29) ( 2019-On going)
