

Patient Notification System

Fast, Confidential Notification of Withdrawals and Recalls

ABOUT THE PATIENT NOTIFICATION SYSTEM

The Patient Notification System is provided at no cost and is a confidential, direct to registrant communication system providing information on withdrawals and recalls.

The system was created to provide patients, providers, and others with a single, convenient, and confidential source for up-to-date withdrawal and recall information. The Patient Notification System was developed by PPTA with direct input from patient groups and the U.S. Food and Drug Administration (FDA).

ENSURING CONFIDENTIALITY

Maintaining registrant confidentiality is a primary consideration. To ensure confidentiality, the Patient Notification System is operated by Sedgwick, an independent vendor that specializes in pharmaceutical notifications.

All registrant information will be held in strict confidence by Sedgwick.

FREE TO REGISTRANTS

There is no fee to participate in the Patient Notification System. The system is funded by participating companies and is free to all registrants.

COOPERATIVE EFFORT BETWEEN INDUSTRY AND CONSUMERS

PPTA designed the Patient Notification System in 1998, working closely with the Alpha-1 Foundation, Committee of Ten Thousand, Hemophilia Federation of America, Immune Deficiency Foundation, the National Hemophilia Foundation, and Canadian Blood Services.

The system is administered by PPTA and is supported and funded by all participating companies including: ADMA Biologics Inc., Bayer Healthcare LLC, CSL Behring, CSL Behring Canada, Genentech, a member of the Roche Group, Grifols Therapeutics LLC, Kedrion Biopharma Inc., Novo Nordisk, Octapharma USA Inc., Octapharma Canada Inc., Pfizer Inc., and Takeda.

An advisory panel made up of patient groups, the FDA, and company representatives provides input on the system and makes recommendations for future enhancements.

HOW THE SYSTEM WORKS

Anyone interested in participating registers with the Patient Notification System and provides general contact information, including their preferred method of notification.

Registrants have the opportunity of being notified by: email, telephone, text messaging, or fax.

Please consider email or text messaging as your primary method of notification, as both are instantaneous, trackable, and immediately accessible, even when away from home.

If a therapy is withdrawn or recalled, the company involved immediately contacts Sedgwick, which then directly notifies the registrant by their primary notification method. Each registrant will also receive a first-class USPS letter as a redundancy.

For current information on therapy recalls or withdrawals, please:

Visit: www.PatientNotificationSystem.org

**Or, call a 24-hour, toll-free number:
1-888-UPDATE-U (1-888-873-2838)**

To maximize the usefulness of the system, it is important to keep accurate infusion logs and record the lot number, therapy name, and manufacturer for all therapies used. PPTA provides logbooks upon request.

**Save time and register now by
scanning the QR code!**

HOW TO REGISTER

1. Visit: www.PatientNotificationSystem.org and complete the registration form.

2. Complete the registration form below and mail it to:

Sedgwick
2670 Executive Drive
Indianapolis, IN 46421

3. Call 1-888-UPDATE-U (1-888-873-2838)
